Sir:

In the Official office Action dated April 10, 2001, please amend the above-identified application as follows:

IN THE CLAIMS

Amend Claims 1, 3, 4, 10 and 13 as follows:

1. A ventilation apparatus for mounting in a garage door including:

a rectangular shaped base support member having an opening formed therein;

a first rectangular shaped tracking member having an opening formed therein,

aligned in the first portions of the opening in the base support member;

a first transparent member coupled in the opening in the first [track] tracking
member;

a second rectangular shaped tracking member having an opening formed
therein aligned in first and second portions of the opening in the base support member
adjacent the first tracking member; [and]

a second transparent member mounted for slidable movement in the opening
in the second tracking member so that the second transparent member can be moved
